

NFTY MAR, Moishe Moose, Volleyball, Number one! Words to the NFTY MAR cheer. Though it is a staple part of our event and identity as a region, it can also be isolating especially for new members. If a new participant attends and greatly enjoys their first event, the last thing we want to do is have their last feeling before they go home be that they don't belong because they don't know the cheer. I want to implement my program to assure that when the time of the cheer comes around, the atmosphere is one of inclusivity, community, and spirit not just for experienced participants but new ones as well.

The program would split participants up into small groups (between 5-10 people). These groups would then split up around the room with group leaders who already knew the cheer. After participants have introduced each other, the group leader will hand out sheets with the words to the cheer on it. Then participants will work to learn the cheer part by part. For example, maybe they would have 10 minutes to work on the first part, 10 for the second part, so on and so forth. For those who are in groups and already know the cheer, they can help teach it as well. Then at the end once all of the parts have been gone over and thoroughly learned we will reconvene and do the cheer together. This is meant to promote a sense of community with MAR and bring the region together as a whole.
